

U.S. DEPARTMENT OF ENERGY'S

CONQUER THE HILL

REIGN EDITION

PART OF THE CYBERFORCE® PROGRAM

Overview

The CyberForce Program is expanding with new competition offerings for 2021. Reign Edition is a virtual skirmish-based mission that will test participants' cyber skills and abilities through a time-focused attack and defend engagement. Students will be provided access to the VPN files the week prior to the competition and access to the Reign arena on the competition day. Participants' goal is to hold the "throne" the longest against all other participants to gain the most points. At the end, the participant with the most time and points in the arena zone is the Conqueror of the Hill.

Student Benefits

- Targeted training on cybersecurity skill sets that employers are seeking
- Access to information about other cyber training and efforts
- Introductions to firsthand examples of new technologies
- Mentorship from industry and national lab staff
